

# 臺北市南港國小因應嚴重特殊傳染性肺炎(COVID-19)防疫措施家長通知單

## Nangang Elementary School COVID-19 Policy Notification

Dear parents,

We have launched some pandemic prevention protocols. Please follow the rules to protect everyone's health.

### Parents' responsibilities:

- Please remind your kids to wear their mask the whole time except when eating and drinking.
- Pay careful attention to your kid's health condition. If they have a fever over 37.5 degrees, coughing, running nose, upper respiratory symptoms or stomach problems such as vomiting or diarrhea, please have them stay at home and rest. And please update the homeroom teacher after seeing a doctor.
- Please measure your kid's temperature at home every morning. And record it on the communication book or Self-health management card.
- If your kid's temperature is more than 37.5 degree, we will measure their temperature one more time before they enter the campus. You will be contacted to take your kid home if necessary.
- Please prepare 3-5 medical masks for school in case they need to change their masks.
- Please remind your kid to wash their hands and keep good habits such as covering their mouth when coughing and washing their hands afterwards.
- Please avoid big indoor gatherings and crowded public spaces.
- If students and their family have TOCC (travel history, occupation, contact history, & cluster history), you must report this to the teacher.

### School protocols:

- There is alcohol provided at the entrance of the campus, everyone must sanitize their hands before entering school.
- Generally, parents and guests are NOT allowed to enter the campus.

But when necessary, guest must wear a mask, sanitize their hands and provide a COVID-19 negative test result within 3 days.

- We will sanitize the classroom every day.
- Students will have a plastic divider when eating. And NO chatting while eating.
- Teachers will measure students' temperature in the afternoon and write it in their communication book.
- Teachers will pay extra attention to students' health condition and contact the parents to take students home or see a doctor when necessary.
- Teachers will maintain air flow in the classroom environment. Teachers will also teach students about pandemic prevention strategies and rules.
